Taking your business to new heights.

Clarifying New Legislation

We remain on top of legislation that affects your business. The Transaction Privilege Tax (TPT) in Arizona affected many doing business in the state. We actively met with lawmakers to clarify the ambiguity within this law and conducted training for our clients to help them understand how it impacted their business.

FAR Knowledge

We support firms with government contracts with their Federal Acquisition Regulations (FAR) compliance.

M&A Consulting

When a client was acquiring another business, we introduced an entity concept that did not cost the existing seller more money but significantly reduced our client's tax obligation.

Pandemic Relief Guidance

During the COVID-19 pandemic, our team reached out proactively to companies to help them understand their options and apply for needed emergency relief funding, bringing them peace of mind to continue their mission.

Proactive Revenue Drivers

We work with construction companies to alleviate pain points such as job costing, overhead rates, contract profitability, cashflow projections and analysis, and estimating. We provide proactive advisory services that help drive revenue while supporting your goals.
